Personal Statement: I'm a former Film BA student from the University of Westminster. During my studies, I worked mainly in the Production and AD Departments. However, I worked in different film roles as well, and therefore have a great understanding of all the film departments and their needs. So far, I have worked on music and sports events, as well as a few film and commercial shoots in the Location and Production Department. Additionally, I have years of experience driving vans (Sprinter, Crafter, Transporter) and am more than comfortable driving in the UK.
